

# For Countries & Governments Seeking Expertise in Power Generation, Oil & Gas & Industrial Project Development

## HMH Services:

Energy  
Consulting  
Long Term  
Agreements  
Accounting  
Financial  
Training

## Helping Countries to Help Themselves

For countries wishing to secure the financing and seek the accounting skills to manage their power generation, oil & gas and refinery projects, HMH offers consulting and structured training for:

- Project Feasibility Studies
- Project Business Plan Development
- Funding Application Development
- Fair Pricing Determination
- Project Risk Management
- Project Contract Negotiations with Multinationals and/or other Governments to Establish Agreements
- Revenue Stream Analysis and Optimization

The best results come from a blend of consulting and hands-on training, which will result in a highly trained localized team within your organization.

Our services can assist with loan applications from international development organizations or government agencies as well as facilitate contract negotiation with multinational firms for the best revenue return for you.

If a multinational firm expresses interest in investing in your country, HMH offers the skills to review the applicant's business plan and negotiate a fair contract. We can help you there as well.

### Experience

HMH consultants and professors have extensive experience on the subject. HMH have performed as main economical/financial advisors of major international projects such as:

- Bolivia–Brazil Pipeline (GASBOL), the longest natural gas pipeline in South America
- Turkmenistan Afghanistan Pakistan and India pipeline project (TAPI)

HMH professional experience also includes world-class international development agencies such as the World Bank.

HMH has a working knowledge base and project experience in over 70 countries.
